

Get a FREE upgrade installation!

V8 Upgrade program:

Symantec's i3 V8 upgrade is at the door. Are you planning to purchase several days of services to upgrade to V8? If so, Total APM has an attractive offer for you: Buy Total APM services (tuning, training etc, for information see <http://www.totalapm.com/services.html>) and get two FREE days of remote services to upgrade your i3 system.

Is your maintenance period about to expire? Are you in a need for additional licenses? Use your money wisely! Renew your maintenance, or purchase your new i3 licenses via Total APM and you will receive two FREE days of remote services to perform the upgrade.

Why Total APM?

With more than 15 years of experience working for Precise/Veritas/Symantec, Total APM's director, Eyal Markovich, is one of the industry's foremost experts in Symantec i3. His past experience in developing Symantec i3 and working with Symantec customers gives him a unique expertise not only in i3, itself, but also in application technology (e.g. Oracle, MSSQL, .Net, Java etc.) as well as customers' applications and requirements. Total APM knows how important your i3 system is and can successfully execute the upgrade process for you.

Make Total APM your preferred VAR

Total APM is a true *Value-Added-Reseller*. Total APM helps you get the most out of Symantec i3 system.

Symantec i3 V8 is officially released!

This version includes many new features, new functionalities as well as solutions for many problems identified in the last several years. This is a **major** version and you want to make sure you upgrade to v8 in the near future. Upgrading to v8 guarantees that you have access to the latest hotfixes and patches. This allows Symantec's support to better handle your needs in the future.

Planning for the upgrade

A successful upgrade means a completion of the upgrade process with minimal downtime of i3 and/or of your applications. To achieve that one need to have a proper understanding of the upgrade process: What are the required steps? What happens in each step? How long would each step take? etc. Let Total APM help you complete your upgrade successfully. For most i3 systems, a total of two days will be sufficient to complete the upgrade process

V8 Upgrade Program Highlight:

- Purchase license/maintenance or services from Total APM.
- Get your 2 days of FREE upgrade services via webex

Some rules apply. Contact Total APM for more information.
